

Industrial Aerosols

ELECTRO CONTACT CLEANER ECC-90

- Quickly penetrates to remove oil, dirt, carbon, flux and other contaminants.
- Ideal for sensitive equipment and precision instruments.
- Leaves no residue.
- Dielectric strength : 38,000 volts
- Non-conductive and non-flammable so equipment can be cleaned while operating.
- Meets performance requirements of MIL-C-81302B.
- NASA-MSFC-237, NASA-MSFC-237a and FED-C-00310
- Includes extension tube

USES

- Electrical contacts and terminals, precision instruments, laboratory equipments, switches, relays, sensors, testers, panel boards, personal computers, VCR, audio and condensers.

Packing

- Aerosol 220g 20cans/box

MULTI-CLEANER DC-3000

ELECTRO CONTACT CLEANER

- Designed for fast, effective remover of dirt, oil and grease on electrical equipment.
- Fast-acting solvent penetrates easily, evaporates quickly, leaves no residue.
- Dielectric strength : 38,000 volts.
- Non-conductive, non-flammable and non-corrosive so equipments can be cleaned while operating
- Meets performance requirements of MIL-C-81302B.
- NASA-MSFC-237, NASA-MSFC-237a and FED-C-00310
- Safe on plastics
- Includes extension tube.

USES

- Electrical contacts and precision instruments, optical and laboratory equipments, switches, relays, sensors, testers, panel boards, personal computers, VCR, audio, condensers.

Packing

- Aerosol 500g 20cans / box

URETHANE COATING SPRAY UC-100

- Clear, flexible film
- Ideal for sealing electrical and electrical and electronic parts.
- Protect against rust, moisture, corrosion, dirt, and alkali.
- Excellent adhesion,
- Water-proof
- Meets performance requirements of MIL-A-46146
- Air dries in minutes

USES

- PCB, coils, control boxes, generators, woods, toys and motors

Packing

- Aerosol 420ml 20cans/box

Characteristics

Volume Resistivity	10 ¹¹ Ω/cm
Voltage resistances	25KV/mm
Drying time	15min (20°C)

SPOT FREEZE SF-1012

SPOT FREEZER

- Instantly chills the parts down to -50°C
- Exposes defective electrical parts, connections and intermittence due to heat-induced failure
- Non-flammable and non-corrosive so SF-1012 can be used while operating
- Includes extension tube

USES

- Machinery, assembly lines, computers, communication instruments in hospitals, laboratories, clinics.

Packing

- Aerosol 300g 20cans/box

PLAGUARD F-150

ANTI-STATIC AGENT

- Neutralizes static electricity generated by friction or atmospheric conditions
- Forms a clear film
- Can be applied to any molded goods with complicated shape
- Superior cleaning effect

USES

- Resin (PVC, Acryl, ABS, PS, Melamine, Polycarbonate, etc.) as well as plastic, glass, metal, ceramic, computer, TV and rubber

Packing

- Aerosol 450ml 20cans/box

DUST FREE DF-200

ANTI-STATIC AGENT

- Neutralizes static electricity generated by friction or atmospheric conditions
- Superior cleaning effect
- Forms a clear film
- Can be applied to machinery or parts in process

USES

- Resin (PVC, Acryl, ABS, PS, Melamine, etc.) as well as plastic, glass, metal, ceramic computer, TV and lens

Packing

- Aerosol 420ml 20cans/box

MULTI-CLEANER DC-5000

HIGH POWERED DEGREASER

- Heavy-duty degreaser and quick-drying cleaning effect
- Leaves no residue.
- Dielectric strength : 28,000 volts
- Non-conductive, non-flammable and non-corrosive.
- Equipments can be cleaned while operating
- Includes extension tube.

USES

- Motors, engines, tools, switches, sensors, testers, panel boards, machinery and equipment

Packing

- Aerosol 500g 20can/box

DUST BLOWER DB-55

- Removes microscopic particles of lint, dust, ferrous oxide and other contaminants.
- Useful on delicate components and instruments where residual entrapment could be a problem
- Harmless to any surface
- No residues
- Non-flammable
- Contains no solvent and moisture
- Can be applied to machinery or parts in process

USES

- Electronics, data processing, optical and laboratory equipment, personal computers, precision mechanical parts.

Packing

- Aerosol 300g 20cans/box

DUST BLOWER DB-77

- Removes microscopic particles of lint, dust, ferrous oxide and other contaminants.
- Useful on delicate components and instruments where residual entrapment could be a problem
- Harmless to any surface
- No residues
- Non-flammable
- Contains no solvent and moisture
- Can be applied to machinery or parts in process

USES

- Electronics, data processing, optical and laboratory equipment, personal computers, precision mechanical parts.

Packing

- Aerosol 240ml 20cans/box

DUST BLOWER DB-1000

- Removes microscopic particles of lint, dust, ferrous oxide and other contaminants.
- Useful on delicate components and instruments where residual entrapment could be a problem
- High pressured Air
- Harmless to any surface
- No residues
- Non-flammable
- Contains no solvent and moisture
- Can be applied to machinery or parts in process
- ODP Zero

USES

- Electronics, data processing optical laboratory equipment, personal computers, precision mechanical parts.

Packing

- Aerosol 400g 20cans/box

MOLD RELEASE R-1, R-2

R-1

- Specially designed to provide a silicone oil type mold release agent for most common plastics and rubber, etc.
- Non-toxic and non-corrosive
- Non-paintable (R-1), Paintable (R-2)
- Colorless and transparent
- Low surface tension
- Non-pollutant and non-staining

USES

- Resin | Epoxy, Phenol, Melamin, ABS, PVC, rubbers, and plastics

R-2

- Specially designed to provide a non-silicone oil type mold release agent for most common plastics and rubber, etc.

Packing

- Aerosol 420ml, 30cans/box

PLA-LUB PL-500

- Wide temperature range : -40°C-150°C
- Safe on most plastics
- Since it is not a silicone type, it will not cause any trouble to electric contact.
- Superior Lubricating ability and adhesiveness.

USES

- Lubricating Plastic-Plastic, Plastic-Metal, Metal-Metal
- Gears of VCR, Audio and Printer, Motor, and control cable.

Packing

- Spray 300ml 20cans/box

SILICONE VARNISH SPRAY S-830

WATER-REPELLENT AND INSULATION COATING AGENT

- High arc resistance, heat resistance.
- Forms colorless, flexible film.
- Excellent adhesion.
- Meets performance requirement of MIL-A-46146
- Resist water and acids.

USES

- Communications equipment tools, electric parts and components, wires and inside walls of control boxes.

Packing

- Aerosol 420ml 20cans/box

RTV SILICONE SPRAY R-820

RTV adhesive, sealing, coating agent

- High arc resistance, heat resistance.
- Forms colorless film.
- Excellent adhesion
- Non-corrosive
- Meets performance requirement of MIL-A-46146

USES

- PCB, coils, control boxes, generators, woods, toys and motors

Packing

- Aerosol 300g 20cans/box

FLUX CUT FR-8000

- Fast drying
- Water-proof
- Prevents flux from appearing on the panel

USES

- Various type of electronic and electric PCB

Packing

- Aerosol 420ml 20Cans/box
Liquid 18Ltr

CD CLEANER Dr. CD COMPACT DISC CLEANER

- Not bad effecting the quality of CD
- Leaves no residue
- Superior cleaning effect.

USES

- compact disc

Packing

- Aerosol 80ml 40cans/box

ELECTRIC PANEL CLEANER EP-500

- Non-conductive and non-flammable so equipment can be cleaned while operating.
- Leaves no residue.
- Dielectric strength : 28,000v
- Quickly penetrates to remove carbon, oil, grease and other contaminants.

USES

- Motor, generator, relays, sensors, machinery and equipment.

Packing

- 500g/can 20cans/box

CONTACT LUBRICANT CL-3500 ELECTRIC CONTACT LUBRICANT

- Removes contaminants such as grease, dirt, dust
- Leaves a fine microscopic corrosion-proof film
- Makes high-precision electrical equipment perform like new
- Safe on plastics rubbers.
- Includes extension tube

USES

- Switches, circuit breakers, contacts, relays, meters, controls signals, condensers, testers, transistors.

Packing

- Aerosol 500g/ Can, 20Cans/ Box
- 48cans/box

ACRYLIC COATING SPRAY AC-100

- Provides a tough, long-lasting protective coating
- Guards against electrical failures
- Protect against rust, moisture, corrosion, dirt, acid and alkali.
- Fast drying
- Clear film

USES

- PCB, coils, control boxes, generators, woods, toys and motors

Packing

- Aerosol 420ml 20cans/box

LUBRICANT, RUST-PREVENT, CLEANER NABAKEM L-840

- Mixture of organic molybdenum and anti pressure additives.
- Indoor rust-prevent for longer than 3 months (Salt water spraying for longer than 24 hours)
- Wide application area (40m²/can)
- Safe for rubber or plastic parts
- Extension nozzle provided facilitates penetrating into narrow or deep cracks and threaded parts.

USES

- Lubricating metal parts of friction and movement.
- Rust-prevent of all metal surface.
- For smooth operation and protection of automobiles, bicycles, home appliances, etc.
- Dehumidifies and prevents penetration of humidity onto the surface of metal.
- Preservation of weapons and friction noise.

Packing

- Aerosol 450ml /can, 360ml /can

STICKER STAIN REMOVER SSR-450/220

- Double effects of washing & brilliance
- Safe on metals, plastics, rubbers, and paints.
- Non-stimulative cleaner
- Penetrates strongly and makes stains completely decomposing

USES

- Sticker stain, gums, tars, adhesives, pitch, etc

Packing

- Aerosol 450ml/Can
220ml/Can

PC CLEANER PC-77

- Safe on plastics, rubbers and Acryl
- Non-flammable, non-toxic and non-caustic.
- 100% biodegradable surfactant

USES

- Computer, OA equipment, plastics and ceramic tile etc.

Packing

- Spray 120ml 48cans/box

NABASOLV 103F PCB CLEANER

- Ultrasonic, sedimentary and vapor degreasing
- Fast evaporating
- Designed for fast, effective removal of dirt, oil and grease
- Safe in plastics, rubbers and paint.
- Non-corrosive and non-flammable
- Penetrates deep into a precision apparatus to clean and dissolve grease and dirt.
- Will not react with all metals
- Meets performance requirements of MIL-C-81303B, NASA-MSFC-237, NASA-MSFC-237a, FED-C-00310

USES

- For cleaning precision instruments, PCB, machinery, engines, tools and metal surfaces.

Packing

- Liquid 22kg

ELECTRIC MOTOR CLEANER EMC-100

- Penetrates quickly to easily lift dirt, grease, carbon wax, and tar
- Ideal for electrical equipment
- Will not harm insulators or leave a residue

USES

- motors, pumps, tools, machinery and equipment

Packing

- 20 L. pall

PAINT REMOVER PR-50A, PR-50P

- Leaves surface clean, ready for repainting or installing new gasket
- Makes removal of gasket cement, paints, sealants and adhesives easy
- Fast acting and penetrating

USES

- Paints, enamel, lacquer, epoxy, urethane, gasket, decals transportation and construction equipment, all type of general maintenance.

Packing

- Aerosol 420ml 20cans/box
